CAREER OBJECTIVE

B.Tech Computer Science graduate (CGPA 8.69) from SR University, Warangal with hands-on AWS cloud infrastructure and DevOps experience through real production project deployment. Skilled in Terraform-style infrastructure as code, Kubernetes concepts, Docker, and CI/CD pipelines. Three AWS Academy certifications with practical deployment experience. Cisco CCNAv7 certified. Seeking Cloud & DevOps Internship at V Solutions Inc to work on real client infrastructure and build production-ready enterprise cloud skills.

TECHNICAL SKILLS

Cloud Infrastructure (AWS): EC2, S3, IAM, VPC, RDS, CloudWatch, CloudFormation - deployment and configuration

Infrastructure as Code: CloudFormation experience, Terraform fundamentals for repeatable infrastructure provisioning

Containerisation & Orchestration: Docker (Dockerfile, build, run, push), Kubernetes deployment concepts

CI/CD Pipelines: GitHub Actions - automated build, test, and deployment workflows

Linux Fundamentals: Ubuntu Linux, command line, SSH, systemd, process management

Scripting & Automation: Python, Bash - deployment automation, monitoring scripts

Monitoring & Uptime: CloudWatch (logs, metrics, alarms), reliability-focused infrastructure practices

Networking: TCP/IP, VPC routing, DNS, security groups (Cisco CCNAv7)

PROJECTS

LifeRoute - Production-Grade Cloud Infrastructure and DevOps Pipeline

Python | Flask | AWS EC2 | S3 | IAM | Docker | GitHub Actions | CloudWatch | 2025

- Built and deployed production-style AWS cloud infrastructure (EC2, S3, IAM, VPC) for a distributed emergency-routing system, applying infrastructure as code principles via CloudFormation.
- Containerised the application with Docker and explored Kubernetes deployment concepts for scalable, orchestrated container management.
- Built CI/CD pipeline using GitHub Actions to automate build, test, and deployment, reducing manual release effort and improving deployment consistency.
- Monitored infrastructure using CloudWatch, configuring alarms and responding to incidents to maintain high uptime and reliability.
- Automated routine operational tasks using Python and Bash scripts, applying DevOps best practices for repeatable, efficient operations.

Medical Appointment Booking System

PHP | MySQL | Linux | Git | 2024

- Built and deployed full-stack application on Linux with clean version control and structured deployment practices.

EDUCATION

B.Tech - Computer Science Engineering | CGPA: 8.69

SR University, Warangal, Telangana | 2023 - 2026

Diploma - Computer Engineering | CGPA: 7.9

VMR Polytechnic, Warangal | 2020 - 2023

CERTIFICATIONS

- AWS Academy Cloud Foundations - Amazon Web Services
- AWS Academy Web App Builder - Amazon Web Services
- AWS Academy Data Pipeline Builder - Amazon Web Services
- CCNAv7 Introduction to Networks - Cisco Networking Academy
- Cybersecurity Essentials - Cisco Networking Academy
